

# MATHCOUNTS®

November 13, 2013

Dear San Diego Technical Society:

I am sure you agree with our mission that quality mathematics education is essential for a technically literate population and global competitiveness. Our volunteer, coaches and sponsors of the San Diego Chapter MATHCOUNTS Competition are proud to be actively encouraging academic excellence in mathematics among middle school students in our community.

The San Diego Chapter MATHCOUNTS Competition total program budget for 2013/2014 is \$3,000 with an estimated 25 participating local schools. This money will pay for students' and coaches' competition expenses including meals, awards, rental equipment and office supplies that are not covered by the school entry fees paid to the national organization. I am requesting your support for the 2013/2014 San Diego Chapter MATHCOUNTS Competition to be held at UCSD on February 1, 2014. We typically receive between \$100 and \$300 per society. In return for your contribution, our Chapter will acknowledge your generosity by listing your society on the day of the competition and in press releases to print and broadcast media.

Thank you in advance for your support of the San Diego MATHCOUNTS event. More information is available at [www.mathcounts-ca.org/sandiego.html](http://www.mathcounts-ca.org/sandiego.html).

Please make your check payable to CSPE – San Diego with a memo for MATHCOUNTS and mail to SD MATHCOUNTS Treasurer, 888 Brockton Street, El Cajon, CA 92020.

Sincerely,

Peter Livingston, P.E.  
San Diego MATHCOUNTS Coordinator  
Member of AEE, ASHRAE, USGBC, CSPE
